Date

**NOTES:**

1. "Abandoned" or "Abandoned in place" is NOT a valid description for the Method of Abandonment.
2. 49 CFR 192.3 and 195.2 define Abandoned as "*permanently removed from service*". Pipelines that could potentially return to service in the future or were sold are not abandoned per the regulations and should be submitted to the NPMS per guidance in the NPMS Operator Standards and NPMS Operator Submission Supplemental Instructions. Pipelines physically removed rather than abandoned in place should be excluded or removed from the NPMS per guidance in the NPMS Operator Standards and NPMS Operator Submission Supplemental Instructions.
3. This report is required for abandoned pipeline facilities that are offshore or cross over, under or through a commercially navigable waterway, per 49 CFR 192.727(g) and 195.402(c)(10)
